

RAVENOL Oldtimer Classic SAE 50 API SB

RAVENOL Oldtimer Regular SAE 50 API SB is an alloyed single grade engine oil for use in classic vehicles with or without an oil filter. It is manufactured using carefully selected pure mineral raffinates. It provides oxidation stability, it is non-foaming and also has excellent viscosity-temperature characteristics. Thanks to its low setting point, this oil can be used in both low and high temperatures and guarantees perfect lubrication. It is suitable for use in most petrol engines / classic vehicles built before 1951. Using this oil in modern engines can lead to defective performance or cause damage.

Application Notes

RAVENOL Oldtimer Regular SAE 50 API SB is designed for use in the engines of vehicles which were built prior to 1951, where the API specification SB is required.

Adhere to oil change intervals specified in the manufacturer's instructions.

Specifications

API SB

Characteristic

RAVENOL Oldtimer Classic SAE 50 API SB offers:

- Corrosion protection
- Good shear stability
- Good oxidation stability
- Excellent viscosity temperature behaviour
- Convincing detergent and dispersant characteristics
- Good cold start characteristics
- Prevents black sludge formation

Characteristics	Unit	Data	Audit
Colour		gelb	visual
Density at 20°C	kg/m ³	895	EN ISO 12185
Viscosity at 40°C	mm ² /s	207,3	DIN 51 562
Viscosity at 100°C	mm ² /s	17,7	DIN 51 562
Viscosity index VI		91	DIN ISO 2909
Flash point (COC)	°C	270	DIN ISO 2592
Pourpoint	°C	-12	DIN ISO 3016
